

Main entrancewas
blocked and hidden; now excavated, rival archæologists camped Falling Block Trap

Slight ridge offers somecover between main entranceand tomb robbers' entrancebut not much!
a) Sloping corridor
b) Pit trap covered by papyrus painted to look likestonefloor
c) Level room
d) Steeply sloping corridor; chamber abovearchway between (c) \& (d) holds large boulder; restraints will let go when trap triggered by pressure platein sloping corridor (d)
e) Pillared room; if boulder trap triggered, boulder will lodge between pillars
f) Steep stairs down (6steps)
g) room may beempty, or contain mysterious (possibly dangerous) beetles, or oil/firetrap, or whatever
h) steep stairs up to secret door to Six Pillar Room
